Teaching Refugees Valuable Skills

Above: Computer Program Director Mohamed Baidaoui and Assistant Ron Saunders with a dedicated team of students.

Disciples of the Way assists refugees in a variety of ways. One of these is teaching valuable skills that help people adjust to life in America. DOW's computer classes teach our refugee neighbors to use a computer, find jobs, access information on the internet, and communicate with others electronically.

***"Make it your ambition to lead a quiet life...
and work with your hands, just as we told you,
so that your daily life may win the respect of outsiders
and so that you will not be dependent on anybody."***

- 1 Thessalonians 4:11-12

Sewing skills create opportunities for jobs and much-needed income. They make it possible for women to make the traditional clothing of their home cultures which can be difficult to find in the U.S. And these skills provide a sense of accomplishment for women facing innumerable challenges.

DOW's sewing classes also offer a safe place for women to build relationships with one another and with the DOW staff. After a morning of sewing, the women gather together with the volunteer teachers and Staff to share lunch, Fellowship, and a devotion.

Disciples of the Way welcomes donations of fabric and other sewing materials, and is always looking for volunteers! If you have sewing skills that could make a difference in a woman's life, we would love to have you on our volunteer team!

(214) 369-1232

"As each has received a gift, use it to serve one another, as good stewards of God's varied grace."

- 1 Peter 4:10
